

Hybrid Intelligence Decentralized Cryptocurrency Exchange & Decentralized Payment System

Overview

WOX meaning World Official Exchange, WOX is a new blockchain that aim to connecting multiple blockchains IN a ONE BLOCKCHAIN, WOX is a new protocol that will be act a bridge between public and private blockchains in a real decentralized place without third-party and user will be able to send or receive transactions between multiple blockchains via ONE UNIQUE ADDRESS in WOX blockchain without the use of additional third-party intermediaries.

WOX Technology and Products

WOX Blockchain

Proof of Confirm concept is the first most innovative **consensus** on blockchain industry. WOX cross-chain transactions will be a bridge between Bitcoin, Ethereum, Tron, Litecoin and EOS blockchains.

The new bridge that we called "**Optimum-chain**" that will connect all public and private blockchain in one blockchain with high scalability and you will be able to make a transaction between two public and private blockchain.

Decentralize Exchange

WOX blockchain lab is backed by BTCBear company and the protocol will be integrate into BTCBear DEX and DEPS platform.

WOX protocol is the first multiple blockchain (Bridge between Ethereum-Tron-EOS) decentralized exchange that allows you to trade ERC-20 and TRC-20 and EOS tokens with WOX address that you can generate an unique address in WOX blockchain.

Decentralized Payment System - DEPS

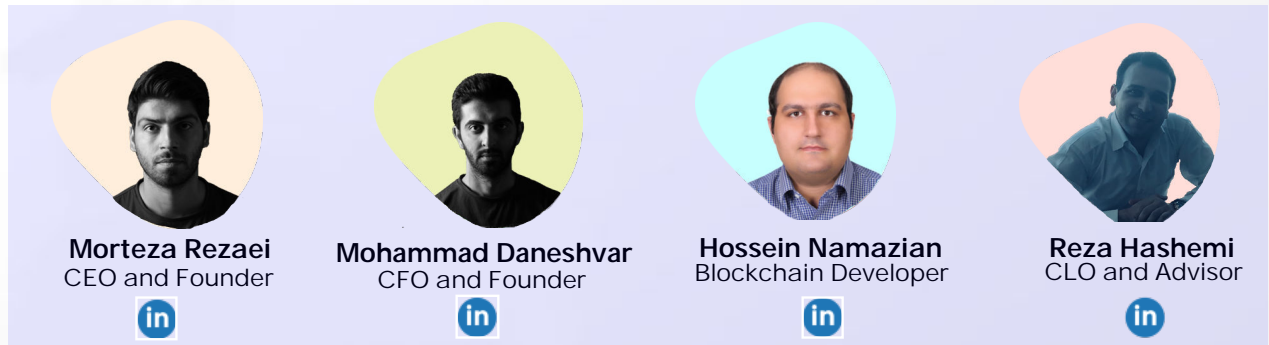

DEPS allows shopping owners to accepting cross-chain payment with unique WOX address to receive Bitcoin, Ethereum, Tron and EOS.

Centralized Platform

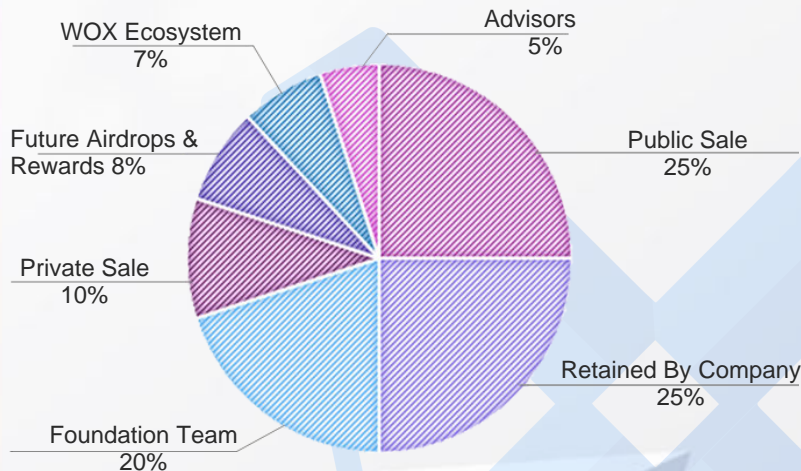

Find best of the best international cryptocurrency exchange platform here.

- Fasted TPS Performance and Trading engine with more than 10 Millions Transactions Per Second
- Peer-to-Peer Margin Trading
- Mirror Trading
- Multiple Order Type (Market - Limit - Stop-limit - OCO - Trailing - Fill or Kill - Iceberg)
- Fiat Currency Transaction
- Payment gateway for merchants
- Hybrid Exchange innovation

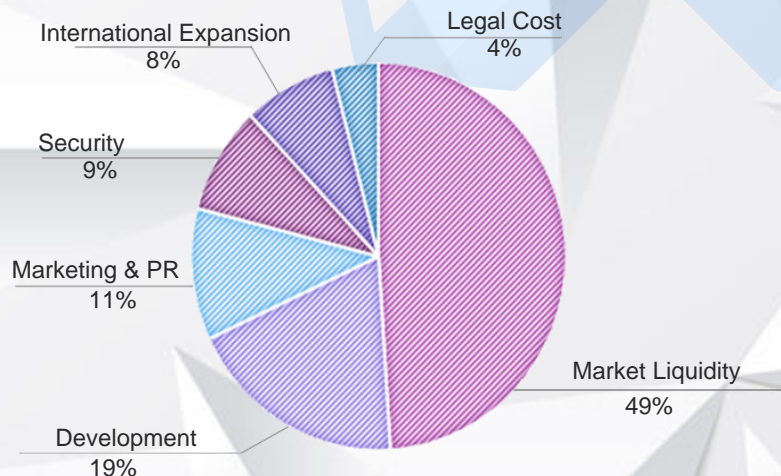

Team Members

Token Distribution

Funds Allocation

WOX Network is BTCBear' Blockchain Laboratory and It's Token Sale event to funding discovering something new Decentralized Financial - **DeFi** project - on the blockchain space. WOX aim to create and build a most innovative DeFi platform for real world.

Token Sale Information

Private Sale: 1st Sep - TBA

Public Sale: TBA

End Date: When Hard Cap is reached

Private Sale Hard Cap:
\$3,000,000

Public Sale Hard Cap:
\$12,000,000

Private Sale Price: \$0.030

Public Sale Price: \$0.048

Individual Cap: \$25,000

Individual Minimum Purchase Amount: \$1000

Total Supply: 1 Billion WOX

Founders Lockup: 3 Years

Private Investors Lockup:
1 Year with quarterly unlock

Advisors Lockup: 10%
Exchangeable in 365 Days
and 90% will lockup for 2
Years

Unsold Tokens: Burned

KYC: Yes for Public sale

Token Type: ERC-20

Token Distribution: Within
10 days after the token sale
ends
